The Deputy Minister of Water, Hon. Engineer Maryprisca Mahundi (MP) has issued a warning to the Manager of the Rural Water and Sanitation Agency (RUWASA) Chato Engineer Andrew Kilembe for failing to timely resolve the faulty water meter installed in the Imalabupina Inchwankima water project and causing the people of the area ran out of water for several days.

"I issue a warning and I urge you to follow up on the problem that causes people not to get water at a time when other areas are providing water, and make sure the annoying meters are quickly changed to remove the nuisance and these people get water", said Engineer Mahundi.
